myShowcase captures visitor information and generates leads by allowing guests to share content of their choosing from your presentation.

Content will be sent via a cloud link or as an attachment in an email for instant access on all mobile devices.

Receive a full analytics report to track engagement, gain insights into audience preferences, send targeted follow-up, and increased qualified leads.

# Multi-User & Omni-Directional Interface

Elevate your presentations with the perfect solution for large touch displays and tables.

myShowcase Pro allows multiple guest to interact with different content at the same time with zero interference.

Visitors can adjust content to any height on the display for a truly customized interactive experience.

Content freely rotates in all directions to accommodate the orientations of multiple uses.

Give visitors the power of choice by allowing side-to-side comparisons directly on the interface.
